CAREER OBJECTIVE

Passionate Full Stack Web Developer with skills in frontend and backend development. I enjoy building responsive, user-friendly, and secure web applications. Always eager to learn new technologies and improve my development skills.

TECHNICAL SKILLS

Back-End	Python, Django, Django REST Framework, REST API, JWT Authentication, User Authentication, CRUD Operations, Payment Gateway (SSLCommerz), Paginator, Media/File Handling
Front-End	HTML, CSS, Bootstrap 5, Tailwind CSS, JavaScript, React (Basic)
Database	SQLite3, MySQL, PostgreSQL
Tools	Git, GitHub, VS Code, Postman, Railway
Others	MS Word, MS Excel, MS PowerPoint

PROJECTS

Django Pottery Shop Project | April 01 – April 25

Project Code: <https://github.com/Alokkumarpaul106/my-pottery-shop> • Live Demo: <http://www.karuponno.shop/>

- Built a full-featured online pottery store with product listing, category filtering, cart management, and order processing using Django and Tailwind CSS. Implemented secure user authentication.
- Designed and implemented a complete shopping cart system with dynamic quantity management, coupon validation, shipping calculation, and real-time order total updates.
- Deployed the pottery e-commerce platform live on PythonAnywhere with optimized database queries and media file handling for product images and details.
- Optimized database models and queries to improve overall performance.

Tech Stack: Python, Django REST Framework, Tailwind CSS, JavaScript, SQLite, Git, GitHub

Django E-Commerce Project | March 06 – March 15

Project Code: https://github.com/Alokkumarpaul106/E_Shop • Live Demo: <https://alok111.pythonanywhere.com/>

- Designed and implemented user authentication and authorization.
- Developed complex business logic for shopping cart management and checkout workflow.
- Integrated SSLCommerz payment gateway for secure online transactions.
- Implemented full CRUD operations for products, categories, and orders.
- Optimized database models and queries to improve overall performance.

Tech Stack: Python, Django REST Framework, Tailwind CSS, SQLite, Git, GitHub

Incident Response Dashboard | February 08 – February 12

- Developed a responsive dashboard with charts and summary analytics.
- Built a responsive dashboard for real-time incident monitoring.
- Created a dashboard with charts, analytics, and incident tracking.

Tech Stack: Python, Django REST API, HTML, CSS, JavaScript, SQLite3

CERTIFICATIONS

Full Stack Web Development with Python, Django & React | Ostad (Batch 7)

Certificate ID: A45137

- Result: Assignment 90.6% • Quiz 90% • Live Test 80%

EDUCATION

B.Sc. in Computer Science and Engineering | 2022 – 2026 (Fresher)

Northern University Bangladesh • CGPA: 3.59
